The Solaria Universe Chronological Order

READING ORDER · NERDZ.CLOUD/READING

For readers who want the timeline straight: Ruthless Boys happens five years before Zodiac Academy, so it comes first, then the prequel novella, then Zodiac Academy with every companion story where it falls in time. In this order the Sorrow and Starlight / Beyond the Veil tandem matters most — the two books happen at the same moment. Heads up: reading Ruthless Boys first means Zodiac Academy's crossover reveals won't surprise you. For maximum impact on a first read, use the main path instead.
