READING

ACOTAR has exactly three official bonus chapters: Wings and Embers (Cassian meets Nesta at the Archeron estate) from a Target edition of A Court of Mist and Fury, and two A Court of Silver Flames exclusives — a Feyre & Rhys chapter and Azriel's Solstice night. They're split into the books at the chapters where fans read them. A Court of Frost and Starlight is part of the series, not a bonus. Reading Crescent City too? Finish A Court of Silver Flames before House of Sky and Breath — see the Maasverse order.
