

Dark-Hunter Universe Official Reading Order

Kenyon publishes an official reading order because this universe genuinely can't be navigated without one: Were- and Dream-Hunter books interleave with the main arc, short stories hide in anthologies (most are collected in Dark Bites), the Lords of Avalon books cross over under her Kinley MacGregor pen name, and Acheron and Styxx are twin epics telling the same centuries from opposite sides. This is her list, with Shadow Fallen appended where its 2022 release lands.
